Proxeed® Plus is a supplement available in powder form. It is slightly lemon flavored and may be diluted in fruit juice or water. We recommend taking Proxeed® Plus for 3-6 months, an initial order of 6 boxes. Proxeed® Plus is supplied with 30 packets in each box, boxes contain 15 boxes for a 6-month supply. On average sperm require 74 days to mature and then 28 more days in order to fertilize a woman. 

Proxeed® Plus Mens Fertility Blend Supplement 30 packs: The newest medicine on the block is Proxeed® and many websites and advertisements claim that Proxeed® helps to increase male fertility. However, while Proxeed® may increase sperm count it cannot increase their viability. We need more proven to be effective in increasing pregnancy rates.
